EVERYTHING WORTH PLANTING

150 BROADWAY NEW YORK

FALL PLANTING

IS AN ACKNOWLEDGED SUCCESS. Trees, etc., make new roots and become established, giving the full maximum of growth the first year. Take advantage of this, for there is so much other requisite work in the spring.

THERE IS AN ADDED ADVANTAGE TOO, for we are offering best quality stock at exceptionally favorable and reduced prices, which makes an attractive investment.

KELSEY NURSERY SERVICE

Consult us with confidence regarding your contemplated planting plans. We will look on your work as a privilege, and study every feature of it in a way that will conserve a twofold interest—yours and ours. In a word, we aim to give you the best in experience, service, quality of material, etc., at a minimum of cost, and in return we expect to merit and to receive your confidence. This leads to mutual satisfaction.

EVIDENCE

is proof and there are many kinds. Concerning our stock and the service we render, its meaning is manifold. **Circumstantial**—in that judging from what our patrons say our Trees, Shrubs, etc., are exceptionally fine and our service is in every way satisfactory. See copies of letters in our catalog.

Direct—in that once you have done business with us, continued relations follow.

Material—in that every order we fill, be it large or small, careful attention is given.

Moral—in that our thirty-seven years' experience is available, and honest, efficient service meted out to all.

WINNING OUT

is usually the climax to a good start. In the Nursery Business it is the firm that gives the best value, not alone for today, but for the ever recurring tomorrow, that proves the winner. Thirty-seven years ago—to be exact—we began giving **The Best Nursery Stock Value**, and that we are winning out is best attested in the growth and enlargement of our business today.

OUR BUSINESS IS NATIONAL IN SCOPE, not confined to any local territory, and we supply **Everything Worth Planting**.

OUR CLIENTELE is a Blue List of fine country estate owners and the leading parks of the country.

WE HAVE DEVOTED considerable time during the summer months to a close inspection and selection of stock and have available for the **FALL PLANTING SEASON** an exceptionally fine and broad assortment in **EVERYTHING WORTH PLANTING** in such "Quality First" material as cannot fail to give satisfaction. We are now also making Reservations for Spring 1917.

SMALL TREES FOR NURSERY PLANTING AND WHERE IMMEDIATE EFFECTS ARE NOT NECESSARY

The purchasing of young trees for planting in Nursery Rows is being adopted by the leading Parks, Public Institutions, Cemeteries, Shade Tree Commissions and the best private estates. It is economical and advantageous, as the trees are practically doubling in value each year and the expense in freight and cartage of the larger trees is obviated.

With rows 4 to 6 feet apart, from 4,000 to 6,000 of these trees can be advantageously planted per acre.

ALL TRANSPLANTED, WELL ROOTED STOCK.
